

22 JUNE 2026

Science in the Swamp

A public talk on peatlands, carbon & our climate future
HOSTED BY SRDC · SUPPORTED BY MEESy

Professor Susan Page

Professor of Physical Geography · University of Leicester, UK

One of the world's foremost peat scientists, Prof. Page has studied tropical peatlands since 1993, with fieldwork spanning Borneo, Indonesia, Amazonia and Central Africa. A Lead Author for IPCC Greenhouse Gas Inventory Guidelines, she bridges cutting-edge research with policy and on-the-ground conservation.

Tropical Peatlands

SE Asia · Amazonia · Congo
~120 Gt carbon stored globally

Fire & Carbon

GHG emissions · land subsidence
Peat fire impacts in Indonesia

Restoration & Policy

IPCC Lead Author
Community-based conservation

PROGRAMME

- 09:30**  Registration & Morning Refreshments
Coffee & tea · Foyer, TROPI Auditorium
- 10:00**  **Talk — Science in the Swamp**
Prof. Susan Page · University of Leicester
- 10:45**  Q&A Session
Open to all attendees
